EDUCATIONS

Brainware University | Barasat — 2024 - Pursuing
Bachelor of Technology in Computer Science and Engineering — *CGPA : 8.79*

Bishnupur Public Institute of Engineering | Bishnupur — 2021 - 2024
Diploma in Computer Science and Technology — *CGPA : 8.4*

Belpahari S.C. High School — 2021
Higher Secondary Education — ***Aggregate**: 66.40%*

Silda Radhacharan Institution — 2019
Secondary Education — ***Aggregate**: 68.8%*

WORK EXPERIENCES

Frontend Developer Intern | Internship — Aug 2025 - Dec 2025
Expantra Tech Pvt Ltd — *On-site • Kolkata, West Bengal*

- Enhanced usability and performance by implementing modern frontend practices.
- Collaborated with the development team to analyze real-world project workflows, improving overall efficiency.
- Gained practical exposure to industry web development standards and version control practices.

Technologies / Skills Used : *React, Tailwind CSS, Git, GitHub*

PROJECTS

AI Mock Interview Platform |

- Developed an AI-powered mock interview platform for real-time practice and feedback.
- Implemented AI-generated interview questions tailored to job roles, skills, and experience levels.
- Built real-time video and chat interview rooms utilizing WebRTC and Socket.io.
- Integrated AI analysis to assess communication skills, technical responses, confidence, and speaking fluency.

Technologies / Tools Used : *WebRTC, Socket.io, React, Node.js*

Event Booking System |

- Developed a full-stack web application for online event booking and management, enhancing user experience.
- Implemented user authentication, event registration, and seat booking features, improving system security and usability.
- Created an organizer dashboard for managing events, bookings, and attendees, streamlining operations.
- Integrated a payment gateway for secure online ticket purchases, ensuring transaction safety.

Technologies / Tools Used : *React, Node.js, Tailwind CSS, MongoDB*

Student Placement Prediction |

- Developed an ML model to predict student placement outcomes using academic and skill-based data.
- Applied data preprocessing, feature engineering, and exploratory data analysis techniques.
- Compared Logistic Regression, Decision Tree, SVM, and Random Forest algorithms.
- Achieved 92% accuracy using Random Forest and identified critical placement factors through feature importance analysis.

Technologies / Tools Used : *RandomForest, Decision Tree*

SKILLS

Databases :	MongoDB, MySQL
Frameworks & Libraries :	HTML5, CSS3, Tailwind CSS, ReactJs
Languages :	English, Hindi, Bengali
Programming Languages :	C/C++, JavaScript, Python
Soft Skills :	Communication, Teamwork, Problem Solving
Tools & Platforms :	Git, GitHub, Postman

CERTIFICATIONS

AI Samvaad Participation Certificate – Brainware University & ACM | CERTIFICATE
Samsung Innovation Campus – Coding & Programming | CERTIFICATE
MERN Stack Development with AI Integration – TechnoExponent | CERTIFICATE
